Sustainability at Falco Electronics

At Falco Electronics, we are committed to sustainable development as a key to our business success. We strive to achieve a balance between environmental, social, and economic aspects in all our operations to ensure long-term value creation for all stakeholders.

Our Commitment

We pledge to promote sustainable development through the following initiatives:

- **Carbon Emission Reduction**: We have significantly reduced our carbon emissions and are committed to further lowering our carbon footprint.
- **Resource Efficiency**: We optimize resource use, minimize waste, and improve energy efficiency.
- **Supply Chain Responsibility**: We work with suppliers to promote sustainable practices throughout the supply chain.
- **Employee Engagement**: We encourage our employees to participate in sustainability initiatives and provide them with the necessary training and resources.

Carbon Emission Disclosure

We transparently disclose our carbon emission data to demonstrate our progress in reducing environmental impact.

Carbon Emission Data for 2025:

- **Scope 1 (Direct Emissions)**: Decreased from 558 tons in 2020 to 460 tons in 2025.
- **Scope 2 (Indirect Emissions)**: Decreased from 5532 tons in 2020 to 4052 tons in 2025.

Our CO_2 intensity (CO_2 emissions per unit of sales) was reduced by 26% from 2020 to 2025. Our target is to further reduce CO_2 intensity by 5% in 2026.

Long-term Target for 2030:

43% reduction in Scope 1 and Scope 2 carbon intensity by 2030, relative to the 2020 baseline.

Sustainability Statements and Certificates

We proudly display our achievements and certifications in sustainable development:

- **Zero Carbon Public Declaration**: Falco Electronics is dedicated to achieving zero carbon emissions, demonstrating our leadership through our actions and commitments.

Future Directions

We will continue to explore new sustainable development practices, including:

- Increasing the use of renewable energy

- Further optimizing our production processes
- Strengthening sustainable development cooperation with suppliers and partners

We invite you to join us in promoting a more sustainable future.
