

Accelerating WATT HOUR METER DESIGN

CURRENT SENSORS

SENSOR ASSEMBLIES, TRANSFORMERS & INDUCTORS

- SMPS transformers
 - Conducted emissions test capability per CISPR 22
 - 50/60 Hertz transformers, surge voltage tested
 - Common Mode Chokes
 - AC/DC inductors
- Full DC tolerance
 - Partial DC tolerance
 - AC current transformers
 - Accuracy class 0.5 and 0.2 as per ANSI C12.20
 - Accuracy class 1.0 as per IEC 62053-21
 - Accuracy class 0.5 and 0.2 as per IEC 62053-22
 - Accuracy class 2 and 3 per reactive energy as per IEC 62053-23

Falco Electronics is a worldwide leader in the design, manufacturing and distribution of current transformers for the electronic metering industry. Falco has been serving the major OEM's and subcontractors in USA, Europe and Asia for several years. Falco has been working closely with the leading R&D teams to meet the demands of emerging technologies.
